BetterWorld Telecom and Green Mountain Energy's eMission Solutions Partner to Bring Sustainable Options to Businesses

Reston, VA and Austin, TX, July 6, 2006 – BetterWorld Telecom and Green Mountain Energy Company's eMission Solutions division recently announced that they have partnered to help bring companies sustainable options for their telecom and energy business operations.

A new voice in the \$300 billion per year world of communications, BetterWorld Telecom is the only nationwide voice and data provider in the USA that focuses on serving small businesses, enterprises and organizations that have social and sustainable missions. Green Mountain Energy's eMission Solutions division offers a portfolio of carbon reduction services for commercial and institutional sector clients looking to improve their environmental position. BetterWorld and Green Mountain Energy will work together on a variety of marketing initiatives to help promote their respective services.

"Partnering with BetterWorld is a natural fit because our businesses share many of the same objectives," said Gillan Taddune, chief environmental officer for Green Mountain Energy Company and head of the eMission Solutions division. "Whether it's through carbon reduction solutions or telecom services, we're both dedicated to helping companies improve their operations by embracing sustainability."

"All businesses need power and communications in some form, we feel this partnership will have a great impact in the sustainable marketplace, making it easier for businesses across the country to do well and to do good," said Jim Kenefick, CEO and chairman of BetterWorld Telecom. "Green Mountain and BetterWorld have created a relevant and unique partnership that will advance our respective missions and advance change in the marketplace. We will provide a one-stop-shop for telecom and electricity related services for companies that are interested in environmental responsibility in addition to high-quality and exceptional service and value.

eMission Solutions

eMission Solutions offers a wide range of carbon reduction products and services including Renewable Energy Credits (RECs), forest sequestration projects, LEED consulting and other carbon reduction strategies. These products and services allow companies to reduce their carbon footprint and offset the carbon emissions associated with business activities like transportation, production, electricity usage, employee commuting and air travel.

BetterWorld Telecom Services

Designed from the start as a triple bottom-line company, BetterWorld Telecom actively promotes people and planet alongside profits, as advocates for social justice and sustainability in the hundreds of communities where we provide service today. BetterWorld offers a “boutique” experience for its customers matching personalized service with full-service provider products ranging from long distance, to 800, local calling, conferencing, dedicated Internet, unified communications, virtual PBX, and VoIP, now basic utilities to most every business and organization in the United States today.

###

About Green Mountain Energy

Founded in 1997 to change the way power is made, Green Mountain Energy Company is one of the nation's leading retail providers of cleaner electricity products, offering residential, business, institutional and governmental customers the choice to support cleaner electricity generated from sources such as wind, solar, water, geothermal, biomass and natural gas. The company recently launched a new division to offer a portfolio of carbon reduction services for commercial and institutional sector clients looking to improve their environmental position. The company is based in Austin, Texas. For more information, visit www.greenmountain.com

About BetterWorld Telecom

Founded in 2003, BetterWorld is a new voice in the \$300 billion per year world of communications, and is the only nationwide voice and data provider in the U.S. that focuses on serving small businesses, enterprises, and organizations that have social and sustainable missions. The company has taken a different road from the rest of the industry it grows through referrals and meaningful partnerships with organizations focused on doing good things in the world. The result of our quality and savings is the ability to divert 3% of telecom revenues of businesses and organizations across the U.S., creating a new and substantive fund of ongoing revenues for organizations whose missions are social justice and sustainability.
