

Unified Communications and Virtual PBX

Bring Together All Your People , All of Your Locations, Into One Common Platform.

Simplify, simplify, simplify. If you run a small to medium-sized organization --or a large organization with many satellite offices --you are probably aware of the benefits of Unified Comms and Virtual PBX. The cost savings. The simplified infrastructure. The advanced features. While the move is inevitable, where and how you move are critical considerations. It is also why you should let the BetterWorld team perform a free assessment of your current infrastructure and recommend a pathway to create less moving parts and greater satisfaction.

With BetterWorld Unified Communications and VPBX Services, You Can Move Your Organization to the Next Generation with Complete Confidence

	Description	Partial Feature/ Benefit List
Complete Calling and Feature Packages – Including Local, LD, Plus all Calling and Enterprise Features	<p>The movement from old to new technology isn't always one that must take place in a single, often resource-prohibitive step. Movement can be transition as much as replacement.</p> <p>The feature sets, which vary depending upon the type chosen, include personal services and mobility, voice mail messaging and web-based call management tools. We essentially bypass the traditional telephony network and transmit all your incoming and outgoing calls using Voice Over Internet Protocol (VoIP) technology.</p> <p>This flexible technology allows you to match feature sets to your specific and future needs—from the most feature-demanding requirements to basic dial tone services.</p> <p>Easily, conveniently and seamlessly connect satellite offices together without expensive capital and changing out existing equipment, while consolidating data and voice bills. We can provide the phones and equipment or you can provide your own.</p>	<ul style="list-style-type: none"> • Flat rate calling plans, including local, long distance • Dozens of calling features included in one, low monthly price • Bridge all of your devices, phones and personnel to one common platform • Feature Highlights: Receive voice mail via email, Find Me-Follow Me • Caller ID • Extension Dialing Across the Enterprise, from ANY location • Full Call Tree and Automated Attendant Features –you design your own master call tree • SAVE PAPER: Faxes sent automatically as a PDF to your email
Advanced, Call Center Features and Options	<p>Create a virtual call center with all the features and functionality of ACDs and high priced call center equipment, setup in just days without any extensive up-front costs. There is no other solution in the industry that compares.</p>	<ul style="list-style-type: none"> • Automated Call Distribution • Time of Day Distribution • Unify multiple people in multiple locations into a single —Call Center
